

ITRegistrar - Registration Management Software

ITRegistrar is a complete registration application for recreational sport that allows the registrars to coordinate and track 100% of their registrations. This application is being used by over 1,500 organizations across North America.

ITRegistrar Features

- Complete member database: players, coaches, volunteers, sponsors
- Single-click registration of returning players
- Customize age categories and divisions
- Build teams (players and team officials)
- View membership and team roster reports online
- Print membership & team roster reports
- Export information to Excel
- Automated email manager
- Available from any computer that is connected to the internet
- Seamlessly integrate online registration (optional)
- Seamlessly integrate ITLeague Manager (optional)

Do you want to reduce registration time by 50%?

Streamline Registration: Coordinate registrations through a single, simple registration application.

Multiple Administrators/Multiple Locations: Because ITSportsNet is 100% Internet based, administrators can work and view reports from any computer.

Share the Workload: Multiple administrators can be set up to manage different categories and age groups.

Spread the Workload: ITSportsNet allows league administrators to securely push administrative activities down to the lowest level. Parents can register their children online, taking care of all the data entry, program selection, and payment. All the administrator has to do is place the registered players on teams.

Volunteer Management: ITRegistrar allows you to collect volunteer information as part of the participant registration process. It also organizes it into the database so that you can find volunteers at the click of a button.

Seamlessly Register with your Governing Body: If your governing body is using the Enterprise Edition of ITRegistrar, players and team officials are registered with them in real time. If your governing body accepts paper forms, reports can be customized to match the required forms.

Best Practices

Be sure to ask for our **Registration Best Practices** information to learn about Pre-Printed Registration Forms and other time-saving tips.
